PERSONAL STATEMENT

A self-starter, who works with integrity and skill. Kylee has a proven ability to create websites from start to finish. She is educated in multiple programming languages. She has created stock market trading simulations, on real-time stock market prices, and managed all data scripts and server-side logic. She has created multiple websites. She can think logically, plan ahead and successfully perform numerous different tasks. Having the right attitude towards work means that she can develop, influence, and support any business set-up.
